Speakers

Lynda Benton - Senior Director Strategic Initiatives, Global Community Impact, Johnson & Johnson World Headquarters, New Jersey, USA

In this role she has responsibility for leading Johnson & Johnson Nursing, representing the company's 125-year commitment to supporting and advocating for the nursing profession.

Lynda is a passionate nurse advocate who firmly believes that to improve healthcare, nurses need to be championed and supported for their impact, empowered to raise their voices and implement their ideas, and valued as innovative leaders helping to shape the future of healthcare.

She has been with Johnson & Johnson for over 30 years, with extensive leadership experience in the pharmaceutical sector, and within the Johnson & Johnson Global Corporate Affairs group.

Sharon Connor - Global Director Environmental Sustainability, ETHICON, Johnson & Johnson MedTech, United Kingdom

In this newly created role, Sharon has responsibility for refining and leading Ethicon's Strategy and Program initiatives for Environmental Sustainability.

Passionate about sustainability, she strives to deliver end to end sustainable solutions and product technologies for Ethicon, that reduce both waste and carbon footprint, and to partner with healthcare providers to help healthcare systems around the globe to do the same.

Sharon has been with Johnson & Johnson for over 24 years with extensive leadership experience within the MedTech sector and has held roles of increasing responsibility across Quality, Operations, Supply Chain and Commercial functions.

Becky McDaniel - Medical Education Manager, Cardiovascular & Specialty Solutions (CSS), Biosense Webster, Cerenovus, Mentor, Johnson & Johnson MedTech Canada

Becky is the Medical Education Manager for the Cardiovascular & Specialty Solutions (CSS) division of Johnson & Johnson MedTech. The Canadian CSS division is comprised of the businesses of Mentor, Biosense Webster and Cerenovus. She is responsible for creating and executing impactful medical education events for physicians, fellows, residents, and allied health professionals.

Becky's career spans over 17 years with Johnson & Johnson and has been in this role for 5 years. Prior to this position, she was a Senior Product Specialist for the Biosense Webster division of Johnson & Johnson. Becky is a former registered nurse in the specialized area of cardiac critical care and electrophysiology. She is, and always has been, enthusiastic about the continuing education of current and future leaders across all healthcare sectors, specialties, and professions.

Dr. Tamara Miller - Anaesthetist, Site Lead, Department of Anaesthesia and Perioperative Medicine, St. Boniface Hospital

Tamara has lived in Winnipeg her whole life. She completed all of her degrees at the University of Manitoba. She is passionate about the environment, riding horses and spending time in nature. She is married and has 2 teenaged children, 2 dogs, a cat and a horse.

Erin Bryant BSN RN - Manager, Specialty Education, Interior Health

Erin is a Registered Nurse and the manager of specialty education for Interior Health region in British Columbia. She is responsible for curriculum development and delivery of in-house specialty education and is manager of specialty education regional educators. Erin oversees the pilot and delivery of in-house specialty education programs and Bachelor of Science in Nursing (BSN) Learning Pathways. The in-house programs have gained provincial and national interest. Whereas the BSN Learning Pathways have successfully integrated New Graduate Nurses into emergency and perioperative departments. Erin is peer-review published and has been invited to present at various national and provincial conferences. She was previously the Education Manager with ORNAC. She values transformational leadership, continual learning and collaborating on alternative ideas.

Eugene Mondor RN, BSCN, MN, CNCC(C) -

A Registered Nurse for over 30 years, I have worked in cardiovascular and thoracic surgery, orthopaedics, and for the past 22 years, adult Critical Care.

Upon graduating from Brandon General Hospital School of Nursing in Brandon, Manitoba, in 1987 (with honors), I began my Registered Nursing career at the Royal Alexandra Hospital in Edmonton, Alberta.

I earned my Baccalaureate of Nursing from the University of Alberta in Edmonton, Alberta, in 1994 (with honors). Shortly thereafter, I pursued my interest in adult Critical Care. I earned my certificate in adult Critical Care Nursing from Mount Royal College in Calgary, Alberta, in 1996 (with honors), and began my ICU career at the Royal Alexandra Hospital.

While working in the adult ICU, I earned my Master of Nursing from the University of Alberta, graduating in 2004 (with honors). My thesis, *Knowledge Acquisition, Knowledge Retention, and Job Satisfaction of Critical Care Nurses,* has helped me identify *how* nurses learn, *what* they learn, but more importantly, enhanced a deeper understanding and appreciation of the teaching and learning process.

I have worked as Clinical Nurse Educator in the General Systems ICU at the University of Alberta Hospital in Edmonton for almost 5 years, and in my current position, as Clinical Nurse Educator in a 27-bed adult medical/surgical/trauma Critical Care Unit at the Royal Alexandra Hospital for almost 10 years.

I am a member of the *Canadian Association of Critical Care Nurses (CACCN)* and the *American Association of Critical Care Nurses (AACN).* I am certified *Basic Life Support (BLS), Advanced Cardiac Life Support (ACLS),* and *Rapid Response Team (RRT)* Instructor. I have achieved and maintain specialty certification in adult Critical Care through the Canadian Nurses Association, and strongly support specialty certification for Critical Care Registered Nurses.

Michael Thompson BBA, PCC - President & Lead Faculty, Leadership Coach and Consultant, Change Innovators Inc.

Michael Thompson is Leadership Coach and Consultant and is President of Change Innovators North America. He has a business degree, is certified in behavioural and emotional assessment tools, is a Heart Math Certified Trainer, and a Professional Certified Coach.

Mike is a highly experienced facilitator and coach with a unique passion and balance between the science of leadership and the important heart centered connection. This is reflected in his credentials as a Certified HeartMath ™ Facilitator and Certified Brain Based coach.

He is also an ICF certified coach, along with certifications in a variety of psychometric assessments including Emotional Intelligence. It is people's happiness, balance and ultimate performance that Michael is always focused on creating profound trust and a unique and transformational experience for each and every leader he works with. One of Michael's favourite statements is, "Leaders of tomorrow will need to manage the neurochemical environment".
